Hello everybody!

Hope you all had a great start for the year! On behalf of LCS, I am pleased to announce that we have a lot of great meetings and tours planned for you this year (See Calendar of Events on Page 15 of newsletter).

I am also pleased to announce that we have two new members in our team. Anna Zaklikowski and Terry Chang are now the co-chairs of our Young Professionals (YP) Committee. Our hearty welcome to them! Anna and Terry had organized a successful Meet & Greet for YPs in the LCS area at the Rock Bottom Restaurant and Brewery in downtown Portland on 29th Jan. They plan on continuing this ‘Happy Hour’ tradition every month. The next monthly Meet & Greet is on March 26th. I am excited that YPs have started being actively involved in LCS. If you haven’t already done so, please encourage the YPs in your organization to participate in these fun events.

I also want to take this opportunity to remind you that the Asset Management Seminar is on March 11th at the Gresham City Hall. The seminar is organized by Northwest Oregon Subsection AWWA in conjunction with PNCWA - LCS. Please see Page 3 for details.

The 33rd Annual PNCWA Water Environment School (Short School) is between 24 - 26th March at the Clackamas Community College, Oregon City. It is an excellent educational and training opportunity. Please check page 7 for financial aid information and other details.

LCS has organized a tour of the MBR facility at OHSU on 2nd April. The YP committee plans on organizing an Operations challenge for YPs and a presentation on Utilities Economic Issues. Look out for notices regarding these events. Information on such events, archived newsletters, committee meeting minutes, etc can be found in our webpage (http://lowercolumbia.pncwa.org/).

PNCWA-LCS is now accepting nominations for the plant, project, and operator of the year 2008 awards. Please check pages 8 - 10 for details on the nomination process. The deadline is on 15th May 2009.

PNCWA – LCS’s activities depend in large part on the financial assistance provided by our supporting organizations. We were fortunate to receive over ten sponsors last year who were acknowledged at the June Workshop, in our quarterly newsletter, and in our website. Sponsorships/Advertising opportunities are now open for 2009-10. Please see pages 11-12 for details and forms. The deadline is on 1st June 2009. We thank you for your support in the previous years and we hope that you will continue to be a supporter of the Lower Columbia Section.

See you next quarter!

Noah Harvey
PNCWA Lower Columbia Section President
What is Pacific Northwest Clean Water Association (PNCWA)?

PNCWA is a professional organization for people in clean water industries in the states of Idaho, Oregon, and Washington. Members include wastewater treatment plant operators, consulting engineers, water treatment equipment manufacturers, etc.

Mission Statement:

“Pacific Northwest Clean Water Association (PNCWA) is dedicated to preserving and enhancing the water quality in the states of Idaho, Oregon, and Washington. We promote the technical development of our members, the dissemination of information to the public and the advancement of science needed to protect the water environment.”

What is Lower Columbia Section (LCS)?

The Lower Columbia Section is one region of the PNCWA encompassing Portland (OR) and surrounding areas.

What’s Going On in the Lower Columbia Section?

See what’s new, find opportunities for training, and meet your officers at our website. We are always looking for people interested in getting involved. Check out the Lower Columbia Section’s website and the PNCWA at http://lowercolumbia.pncwa.org.

What is the Young Professionals (YP) division?

The Young Professionals division of the PNCWA-LCS pertains to anyone under 35 years of age or anyone with less than 10 years of experience in the clean water industry.

LCS’s YP Events are held quarterly that allow rising professionals exposure to the fundamentals of wastewater treatment technology. Each event is designed to enable learning specific to our industry and provide networking opportunities for Young Professionals. Events range from touring municipal wastewater treatment plants, touring breweries to just a get-together to have fun.

“A young professional is anyone under 35 years of age or anyone with less than 10 years of experience.”

If you have an event you would like to suggest or to learn more about the PNCWA, please contact the YP co-chairs: Anna Zaklikowski (Anna.Zaklikowski@hdrinc.com) and Terry Chan (Terry.chan@ch2m.com).
Reminder: Asset Management Seminar!

Please email contact below to check seat availability for the Seminar organized by the Northwest Oregon Subsection AWWA and PNCWA - Lower Columbia Section!

Course Content:
- Overview of Asset Management: Barry Buchanan, City of Salem
- From Management to the Field Criticality Assessment and tools of the trades: Marc Yarlott, Veolia Water
- Case Study - Portland Bureau of Water
- Case Study - Mark Mitchell, Portland Bureau of Environmental Services
- Real World Lessons Learned: Rich Ludlow, Veolia Water
- Round Table Discussion

Make checks payable to Northwest Oregon Subsection AWWA and mail it to Corie Peterson with attendee information (Name, Company, Address, Phone number, Email, Receipt requested, and Dietary Restrictions (please call with details)).

Please EMAIL Corie ASAP to check for seat availability
Corie Peterson
West Yost Associates
8100 Nyberg St, Ste 200
Tualatin, OR 97062
Telephone: 502 692 3223
CPeterson@westyost.com

Directions: Take I-84 to the 181st Avenue Exit, Exit 13, toward Gresham. Turn south onto 181st Avenue. Go approximately 1.3 miles and turn east onto E. Burnside St. After 2.2 miles, turn south into NW Eastman Pkwy (destination will be on the right).

For Questions & Queries: Please e-mail Corie Peterson at CPeterson@westyost.com
A group of rising young professionals in the Lower Columbia Section had the opportunity to visit and tour the award-winning Gresham Wastewater Treatment Plant on November 20th, 2008. The PNCWA-LCS Young Professional’s committee had organized the meet/greet/tour of the facility for YPs to network with one another and gain exposure to the fundamentals of the modern wastewater treatment technologies.

The Gresham wastewater treatment plant serves the cities of Gresham, Fairview and Wood Village. The 20 MGD Gresham Wastewater Treatment Plant is the prototypical well run municipal wastewater treatment plant.

**Plant Design Criteria**

- **Plant Design Flow**: 20 MGD  
- **Dry Weather Design Flow**: 15 MGD  
- **Liquids Treatment**: Secondary Treatment/Activated Sludge  
- **First plant construction**: 1953  
- **Second plant construction**: 2002  
- **Influent screen size**: ½”  
- **Influent pump capacity**: None – gravity fed  
- **Aeration Volume**: Lower – 1.5856 MG (2.3784 with 1a/b)  
  Upper – 1.934436 MG  
- **Cogent KW**: 395 kw design  
  (about half of the plant power needs)  
- **Biosolids Storage**: 600  
- **Plant Staff**: 16

The highlights of the Gresham WWTP are its biosolids handling facility and its energy conscious efforts to significantly reduce power costs and energy dependence.

The plant recycles its leftover sludge, or biosolids, for reuse as a crop nutrient and soil conditioner on agricultural land (land application).

The WWTP uses a 395 KW combined heat and power system that is specifically designed to utilize the low pressure methane gas produced from the plant’s digesters and turns it into electrical power and heat that is used at the facility, thereby providing significant electric power savings each month.

“...The highlights of the Gresham WWTP are its biosolids handling facility and its energy conscious efforts to significantly reduce power costs and energy dependence.”
This unit supplies nearly 50% of the plant’s 800-kW peak load. The heat recovery system is used to produce hot water from the engine coolant and exhaust. The hot water heats the plant’s two digesters. In cold weather, some of the hot water heats the facility’s administration building. The control system provides multiple operating modes depending on system conditions and facility loads and can be manually switched to back up mode to keep critical components online during a utility outage.

The WWTP purchases 17% of its electricity as renewable energy from wind farms in Oregon through PGE’s Clean Wind Program. Overall, the WWTP’s energy use is nearly 70% sustainable.

The plant also has an award-winning asset management program which was profiled in our previous newsletter for winning the PNCWA-LCS Project of the year 2007. Gresham - Veolia Asset Management approach is similar to the EPA recommendations where an asset’s lifecycle view is applied to maintenance decisions and repair versus replacement (capital improvement) strategies. Please refer to our previous newsletter for details on the program. Also, please note that two keynote speakers from Gresham’s Asset Management Program will be presenting at the Asset Management Seminar on March 11th. Registration details for the Asset Management Program are given in Page 3. You will have to hurry to reserve your seats!

Monica Anderson, Operations and Maintenance Manager (Veolia Water) of the Gresham Wastewater Treatment plant, provided an excellent overview of the plant to the eager tour attendees. Monica led a tour of the treatment plant for the 20+ appreciative water quality professionals from all over the lower Columbia section. Following the facility tour, the young professionals enjoyed some refreshments and light dinner.

The Lower Columbia Section thanks Gresham Wastewater Treatment Plant, Monica Anderson, and the treatment plant staff for a fascinating tour.
The PNCWA Lower Columbia Section is pleased to introduce the new co-chairs of the Young Professionals committee, Anna Zaklikowski and Terry Chan. Anna and Terry have been making a lot of efforts in organizing Monthly Meet and Greets and other events for the Young Professionals in the Lower Columbia Section.

Anna and Terry organized a kick-off meet and greet that was well attended. The young professionals in the LCS area gathered for an informal meet and greet at the Rock Bottom Restaurant and Brewery in downtown Portland on 29th January 2009 between 5 PM and 9 pm. A few CCC students from water and environmental technology program also joined the gathering.

The group also discussed ideas for future quarterly educational events. It was concluded that the Economic Issues with respect to Utilities is the topic that everyone is currently interested in. The YP chairs would be organizing a talk on the topic shortly. In addition, a YP operations challenge was another topic of interest. The operations challenge could be designed with activities to teach YPs about WWTP unit processes and lab procedures. This would be hosted by the Gresham Wastewater Treatment Plant and could possibly end with a competition.

The first meet & greet was successful and the chairs hope that it kicked off what would be regular monthly ‘Happy hour’ meet & greet that would occur on the last Thursday of each month.

In addition to these activities, the YP chairs would be organizing facility tours, workshops, and presentations for the YPs in the LCS area.

PNCWA-LCS would like to invite all young professionals practicing or that have an interest in the wastewater/water quality field, including college students, consultant engineers/scientists, and interested professionals from municipal agencies and regulatory organizations to join us for our YP events. If you would like to receive emails on the events and other news, please contact Anna or Terry.

For details on upcoming YP events, please see Page 15 of this newsletter.
33rd Annual PNCWA Water Environment School (Short School)

**Date:** 24, 25, 26th March, 2009  
**Place:** Clackamas Community College, Oregon City  
**Time:** 8:00 am – 5:00 pm (all days)  
**CEUs:** 2.4  
**Refreshments:** Continental Breakfast, Break time Refreshments, and Buffet Lunch  
**Course Topics:** Operations, Source Control, Collections, Maintenance, Managements & Supervision, Wastewater Basics, Biosolids, Storm water, Health & Safety, Laboratory Procedures, and Technology.  

(Presented topics will provide supplemental occupational education, training, and technical upgrading for those employed in both the municipal and industrial arenas.)

PNCWA Lower Columbia section recognizes exceptional service and performance in the wastewater industry every year.

In the past years, awards have been given for the Plant of the Year, Treatment Plant or Collection Systems Operator of the Year, and the Project of the Year.

In the June 2008 Workshop, awards were given to the following plant/project/operator based on the performance in 2007. Our previous newsletter (4th Quarter 2008) had provided details of the award winners. The 4th Quarter 2008 newsletter can be found in our website.

2007 PLANT OF THE YEAR: CITY OF NEWBERG - WWTP

2007 PROJECT OF THE YEAR: ASSET MANAGEMENT (Gresham-Veolia WWTP)

2007 OPERATOR OF THE YEAR: DARREN EKI (Gresham-Veolia WWTP)

2008 Award Nominations

The Lower Columbia Section (LCS) of the Pacific Northwest Clean Water Association (PNCWA) is now accepting nominations for the following awards:

A. Wastewater treatment plant of the year,
B. Treatment plant operator of the year,
C. Collection system operator of the year, and
D. Project of the year.

These awards are in recognition of exceptional service and performance in the wastewater industry. Eligible for awards are all treatment plants, collection system and treatment plant operators, and wastewater related capital projects in the counties of: Columbia, Multnomah, Washington, Yamhill, Clackamas, Hood River and Wasco (i.e. the LCS Service Area).
How to submit a 2008 AWARD Nomination?

Nominations may be made by PNCWA members or any operator, manager, supervisor, city engineer/official, district board/council member, consulting engineer or manufacturer representative.

How to submit a nomination?
Simple! First, contact the Awards Chair with a brief, 1-paragraph description of your nomination. The Awards Chair can provide you with a template that may facilitate the application process.

Monica Anderson, LCS Awards Chair
monica.anderson@veoliawaterna.com
Operations and Maintenance Manager
Veolia Water North America Operating Services
Gresham Wastewater Treatment Plant
20015 NE Sandy Blvd.
Portland, Oregon 97230
Tel: 503.618.3453
Cell: 503.519.0772

DEADLINE: All nominations should be submitted no later than 15 May 2009.

To nominate, demonstrate that the award criteria have been met or supply the following information:

A. Plant of The Year 2008:

1. NPDES or WPCF permit compliance for 2008
2. O&M performance (including staff training, certification, safety program, energy conservation, industrial pretreatment, biosolids management, lab management, maintenance management, etc.)
3. Innovative techniques or superior application of established treatment techniques
4. Significant improvements in operations, maintenance, and plant management made in 2008
5. Other significant accomplishments
6. Support of the Lower Columbia Section (e.g. hosting meetings, and allowing employees to attend section meetings, conferences, and workshops).

Nominations should include a Plant Profile that includes a description of the treatment process, design flows and loadings, and current actual flows and loadings. Photos are encouraged but not required. The nomination must include a letter of recommendation from the person nominating the plant that addresses the above criteria and any other relevant factors.
B. & C. Treatment Plant or Collection System Operator of the Year 2008:

Nomination must include the following information:

1. Your full name.
2. Nominee’s full name.
3. Which award (WWTP or Collections).
4. Nominee’s plant and system information.
5. Your phone number, mailing address, and email address (if available).
6. The daily, weekly, and monthly operations and maintenance duties of the nominee.
7. Operational challenges/problems and how the nominee assisted in solving these problems.
8. Recent Short School courses or participation, correspondence courses, college courses, or other work related training.
10. Any other noteworthy activities related to the wastewater field.
11. Any other qualities (job related or otherwise) that make this individual outstanding among his or her peers.

The information submitted should be as detailed as possible. Photos of the nominee, plant, equipment, etc. are not required, but strongly encouraged.

D. Project of The Year 2008:

This award is in recognition of the role capital projects play in the wastewater industry. Awards will be given to the owner (municipality, service district, or other agency), design engineering firm, and prime contractor of the project.

Eligible Projects:
1. Capital projects relating to wastewater collection & treatment, stormwater collection & treatment, effluent reuse, environmental mitigation, or related fields
2. Project must be within the LCS service area.
3. Projects must have been completed between 1 January and 31 December 2008

Nominating Criteria:
1. Benefit to the environment
2. Benefit to the public
3. Application of new techniques or innovative application of existing techniques
4. Unique features and/or challenges in design, construction, or financing
5. Stakeholder/public involvement
6. Cost control
7. Quality control
8. Coordination between entities involved (owner/designer/builder/others)

Nominations should include a narrative description of the project, including purpose, scope, history, financial information (engineering estimate, budget, final cost, etc.), and how the project meets the criteria listed above. Nominations should include the names of project owner (municipality, service district, etc.), design engineering firm, prime contractor, and the names of the responsible parties from each entity. Photos are encouraged but not required.
CALL for June 2009-2010 SPONSORSHIPS

This is an invitation on behalf of Lower Columbia Section - Pacific Northwest Clean Water Association for a sponsorship opportunity for the PNCWA-LCS Activities.

The activities include an annual workshop, several plant tours, YP events (monthly meet and greet, plant tours, presentations, etc). We request you to kindly send in your response by June 1st 2009.

We have three principal levels of sponsorships:

- Gold Sponsor - $250
- Silver Sponsor - $100
- YP Events Sponsor - $75

The Gold sponsorship or the Lower Columbia Section Executive sponsorship will include the logo of the organization to be posted on the Lower Columbia Section website and poster board sponsorship recognition at the annual workshop and awards presentation. Sponsors will also be acknowledged in our quarterly e-newsletter that is sent to all the members of the Lower Columbia Section.

The Silver sponsorship or the Lower Columbia Section Regional sponsorship will include the logo of the organization to be posted on the Lower Columbia Section website. Sponsors will also be acknowledged in our quarterly e-newsletter.

Starting this year, we invite you to contribute to the Young Professional Events sponsorship that will include an additional contribution of $75. The YP events will be held on a monthly basis and allow rising young professionals in our Lower Columbia Section to network with one another and gain exposure to the fundamentals of wastewater treatment technology. All the YP events held within the fiscal year will highlight sponsorship of the contributing organizations.

PNCWA – LCS’s activities depend in large part on the financial assistance provided by our supporting organizations. We were fortunate to receive over ten sponsors last year who were acknowledged at the June Workshop, in our quarterly newsletter and in our website (http://lowercolumbia.pncwa.org/). We hope you will continue to be a supporter of the Lower Columbia Section - PNCWA.

Any questions or queries regarding PNCWA-LCS event sponsorships can be addressed to Priya Dhanapal (priyadhanapal@kennedyjenks.com; Phone: 503-423-4057)

Please use the accompanying form to indicate your participation for the PNCWA-LCS sponsorship events.
March, 2009

Re: Lower Columbia Section - Pacific Northwest Clean Water Association
Sponsorship Application for PNCWA-LCS Activities for fiscal year June 2009-10
Note: Deadline: 1st June 2009

Your Organization's name: ________________________________
Date: ___________

Please indicate your level of support below and send your check payable to LCS-PNCWA to:

Monica Anderson
Treasurer – LCS PNCWA
Operations and Maintenance Manager
Veolia Water North America Operating Services / Gresham WWTP
20015 NE Sandy Blvd,
Portland, OR 97230
